

Greetings Parents/Guardians,

When you register your child for Summer School, one of the first steps will be to “select” your child’s school. You **MUST** select your child’s **current home school or school of attendance**. For example, if your child is assigned to the Creekside attendance area - you must select Creekside.

By selecting your child’s home school, the registration system will take you to your child’s summer school site and will open the program to the classes that are available to your child.

If you select a school that is **NOT** your child’s home school or the school of your child’s current attendance area,

- you will **NOT** qualify for district provided transportation, and
- your children may **NOT** get registered for the classes they would like to be in.

It is imperative that you select your **child’s current home school**.

Parents/Guardians of current 4K students (incoming Kindergarten students):

- Please check the current [map](#) if you are unsure what elementary school boundary where your address is currently located.
- Please be aware that the current school where your child is assigned may be different than the school your child will be attending for kindergarten in the fall of 2018 because the new boundaries won’t go into effect until the end of summer school.
- Current 5th grade students will attend Prairie View Middle Summer School site
- Current 8th grade students will attend Prairie View Middle Summer School site
- Patrick Marsh Middle School students will attend Prairie View Middle Summer School site
- Prairie View Middle School students will attend Prairie View Middle Summer School site
