## SUN PRAIRIE ELEMENTARY SCHOOLS: Token Springs Elementary School

05/11/2018

### What's New?

This week at Token Springs, a lot of interior finishes started and made great progress. In the 2<sup>nd</sup>/3<sup>rd</sup> grade classroom wing, carpet was installed, along with some of the sliding glass doors; carpet is now being received in the kindergarten/1<sup>st</sup> grade wing. The gym floor has been installed, and now it needs to be sanded, sealed, polished and painted, so it will be finished in about two more weeks! The painters have finished painting the 2<sup>nd</sup> floor library and art room, and they also recently finished painting the ELRC, so they will begin applying final coats to the classroom walls. Meanwhile, exterior sitework is ongoing – curb and gutter was installed last week, and more sidewalk will be poured in the coming weeks.

### The Past Weeks

- Finished painting the ELRC and 2<sup>nd</sup> floor library/art room
- Installed carpet in the 2<sup>nd</sup>/3<sup>rd</sup> grade classrooms
- Wood panels installed around the stage
- Curb and gutter poured
- Set up security locks on office doors

### • Coming Up in the Weeks Ahead

- Continue installing carpet in the classroom wings
- Finish sealing and painting the gym floor
- Drop ceiling tile in the 4<sup>th</sup>/5<sup>th</sup> grade wing
- Install the sliding glass doors in the classrooms

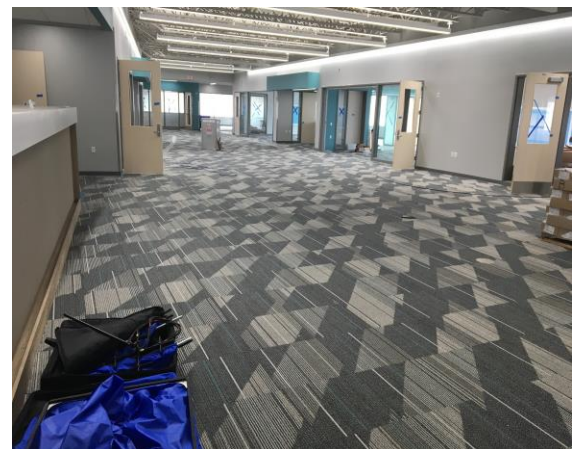

*Sidewalks are being poured outside the doors to the building, and more sidewalk will be poured next week!*

*The glass sliding doors that separate classrooms from the hallway have arrived and are now being installed.*

*The ELRC is painted and ready to receive casework and ceiling grid!*

*The 2<sup>nd</sup>/3<sup>rd</sup> grade classroom wing received carpet last week, and the area is very near completion! The kindergarten/1<sup>st</sup> grade wing is receiving carpet this week.*

**Did you know?** A lot of thought went into making sure that the doors at Token Springs (and Meadow View) are secure and safe! For example, if there were a fire, the magnetic holds on the door would release when the fire alarm sounds, keeping the doors closed and providing 90 minutes to 3 hours of protection from the fire. Meanwhile, the locks on the doors are remote, meaning there is no key or latch for entry. Instead, an electric switch is used to unlock/lock the doors. This makes it virtually impossible for the lock to be picked or busted, providing excellent security for the rooms!

## SUN PRAIRIE ELEMENTARY SCHOOLS

05/11/2018

---

*This week, the gym floor is being sanded and sealed, and then next week the game lines will be painted!*

*The art room and library are painted, and they have received most of the glass for their windows as well.*

*Curb and gutter was poured this week, outlining the parking lots and driveways so that the asphalt can be poured soon. The sitework is moving along quickly and looking great!*

*In the main entrance hallway, the frames and glass have been installed. The first floor windows look into the receptionist office, and the 2<sup>nd</sup> floor windows are in the library and look down into the main hallway!*
