

EXECUTIVE SUMMARY REPORT

SUN PRAIRIE ELEMENTARY SCHOOLS: Token Springs Elementary School 04/13/2018

What's New?

At Token Springs this week, sitework began outside. The thermal rock garden was put in, and curb and gutter installation will start in the next couple of weeks. Inside the building, the classrooms received markerboards and fixtures this week. In the coming weeks, carpeting and sliding glass doors will be installed in the classroom wings, so these areas are nearing completion! The gym received basketball hoops and acoustic wall panels this week, and the wood floor is starting next week. Meanwhile, the painters are finished with painting the administrative offices so they are moving up to the 2nd floor to begin painting the art room and the library.

The Past Weeks

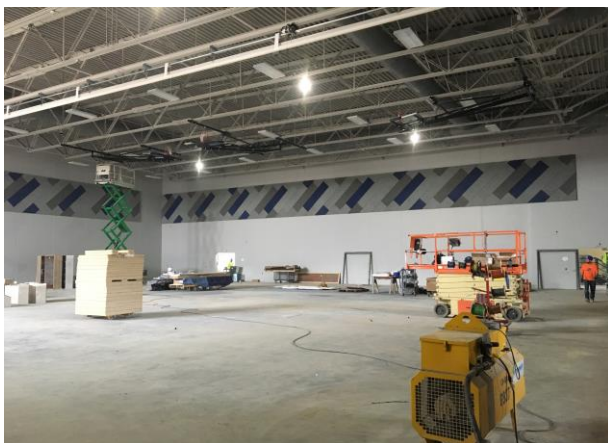

- Finished MEP rough-ins and started drywall in the ELRC
- Exterior site work started
- Painted the administration offices
- Installed acoustic wall panels and basketball hoops in the gym
- White boards installed in the classrooms
- **Coming Up in the Weeks Ahead**
- Begin gymnasium wood floor installation
- Carpet and Resilient Flooring in the grade wings
- Install kitchen equipment
- The sliding glass doors in the classrooms will be delivered and set up
- Start painting the art room and library

The brick for the exterior trash enclosure near complete. All of the school's brick is now installed!

The overhead garage doors in the back of house are up and running, making deliveries easy to unload.

Acoustic wall panels and basketball hoops are installed in the gym! The wood floor will begin next week.

In the administrative offices, the carpenters have been installing casework!

Did you know? The gym at Token Springs isn't just "big" – it's huge! Measuring at 14,500 square feet and 35 feet high, the gym has a total volume of 507,500 cubic feet. If it were filled with water, the gym could hold over 3 million gallons! This is about half the volume of the orca tank in SeaWorld, Orlando, which holds about 6 million gallons of water! The gym's massive size makes it perfect for community events and sports.

SUN PRAIRIE ELEMENTARY SCHOOLS

04/13/2018

Here is a look into one of the first grade classrooms! This gives a glimpse of the casework, resilient floor, markerboards, and divider wall, and overall it shows what a finished classroom will look like. The only pieces missing are the carpet and furniture!

The drywallers finished up the art room and library area last week, and now it is getting taped and prepped for paint.

Sitework is starting at the school! Here, gravel is being poured for the thermal rock garden. Site grading, curb and gutter installation, and more exterior sitework will continue in the coming weeks!

On Wednesday, the future Token Springs teachers took a tour of the school! Everyone was very impressed with the progress and excited to move in!
